Dear Gerry and Caroline,

I'd like to express my gratitude for your outstanding swimming schools and classes.

As any parent will testify, there is nothing you would not do for your child AND there is nothing that you would not do to protect them. I am so grateful for your outstanding teaching standards and professionalism. They helped both my wife and I to relax and enjoy helping our 4 month old daughter Leela swim under water in her first lesson! What was amazing was that we did not feel nervous...we were excited.

Moreover, as a wellness doctor I am passionate about natural health and our potential for incredible quality of life. As such I was extremely impressed with your facility of an oxygen pool. Coupled with private classes I can not think of a better way to introduce any child to exercise and confidence in the water.

Both my wife and I are so looking forward to watching our daughter develop in the pool under your excellent tutelage. We are already so pleased with her confidence and ability in the water – both from a developmental point of view and a safety one. All of this aside, and perhaps most importantly, your classes have provided a wonderful safe haven for our family bonding. For that we're eternally grateful.

Warmly,
